

personal safety plan

This is a personal safety plan you can work on as a way to cope when you are having thoughts of suicide or self-harm. You can print it out, or write down your ideas on a piece of paper, then place it in a safe place you will remember. If you are beginning to feel you are having thoughts of self harming yourself or suicide you can read what you wrote now, and it may help in a time of need.

Step 1: What are some things that you can recognize in yourself which can remind you to use this safety plan? For example, any thoughts, emotions, or behaviors that may be a warning that a crisis is developing?

Examples: Racing thoughts, feeling hopeless, sad, depressed, or thoughts of cutting, stressful events.
